<sup>1</sup> If no viewpoint (VP) number is indicated, no photo was obtained during fieldwork. NRHP-Eligible sites without a photo taken specifically of the resource have viewpoints located within 1,000 feet listed to show general character of the nearby area. These viewpoint numbers are underlined, to differentiate them from photos of the actual resource.

<sup>2</sup> For large areas and linear sites, approximate distance to the nearest turbine was measured from the respective area's closest point.
