**Review Responses**

Reviewer	Review Type	Response
James Finelli	Survey and Evaluation	In order for SHPO to complete our evaluation of the historic significance of all buildings/structures/districts within or adjacent to your project area, we need further information. Please review the specific information request(s) below and click the Process button to respond to each request.

**Information Requests**

Process	Status	Reviewer	Review Type	Request Type	Request Entity	Request Item	Request Description
	Information Requested	James Finelli	Survey and Evaluation	Request a New Attachment, Photo, or Survey for this Consultation Project		Survey	We concur with the Architectural Survey Work Plan. We request that if any potential historic districts are identified by the survey team please indicate their boundaries and significance in the survey submission.

# Parks, Recreation, and Historic Preservation

ANDREW M. CUOMO  
Governor

ROSE HARVEY  
Commissioner

March 07, 2017

Mr. Grant Johnson  
Senior Cultural Resources Specialist  
EDR  
217 Montgomery Street  
Suite 100  
Syracuse, NY 13202

Re: PSC  
Baron Winds Project  
Steuben County, NY  
15PR02834

Dear Mr. Johnson:

Thank you for requesting the comments of the Division for Historic Preservation of the Office of Parks, Recreation and Historic Preservation (OPRHP). We have reviewed the submitted materials in accordance with the New York State Historic Preservation Act of 1980 (section 14.09 of the New York Parks, Recreation and Historic Preservation Law). These comments are those of the Division for Historic Preservation and relate only to Historic/Cultural resources. They do not include potential environmental impacts to New York State Parkland that may be involved in or near your project. Such impacts must be considered as part of the environmental review of the project pursuant to the State Environmental Quality Review Act (New York Environmental Conservation Law Article 8) and its implementing regulations (6NYCRR Part 617).

OPRHP has reviewed the following document submitted for this project – Addendum Historic Architectural Survey Work Plan (EDR, February 2017). Based on the information provided, we concur with the proposed changes to the Area of Potential Effects. Please note that since some of the wind turbine locations have been altered for this project that an addendum to the Phase 1A Archaeological Survey Report will be required.

If you have any questions please don't hesitate to contact me.

Sincerely,

James Finelli  
Historic Preservation Program Analyst
