

Baron Winds' PRE-CONSTRUCTION NOTICE September 2021

This notice announces that, on or about September 20, 2021, Baron Winds LLC (Baron Winds or Certificate Holder) will commence construction of the Baron Winds Project a wind-powered electric generation project located in the Towns of Cohocton, Dansville, Fremont and Wayland, Steuben County, NY (Facility).

Pursuant to the Article 10 process, this notice is being provided in accordance with Certificate Condition Nos. 19 & 20 in the *Order Granting Certificate of Environmental Compatibility and Public Need, with Condition*, issued by the New York State Board on Electric Generation Siting and the Environment, on September 12, 2019. A copy of the Order (and all public documents filed in this proceeding) may be accessed electronically at the Department of Public Service website, www.dps.ny.gov. To access documents, go to "Search," type the case number, "15-F-0122," and click "Search by Case Number".

BRIEF DESCRIPTION OF THE PROJECT

Baron Winds will construct the Baron Winds' Project, a wind energy generation facility and associated necessary infrastructure in the Towns of Cohocton, Dansville, Fremont and Wayland, Steuben County, New York. Baron Winds will construct the project in phases. Phase I consists of 32 utility-scale wind turbines (22 in the Town of Cohocton, 2 in the Town of Dansville, 8 in the Town of Wayland, 0 in the town of Fremont) with a maximum facility generating capacity of 121.6 MW. Phase I of the Project will also consist of approximately 12 miles of access roads, approximately 22 miles of underground collection lines, a collection substation, one permanent meteorological (met) tower and an Operations and Maintenance (O&M) facility.

THE CONSTRUCTION SCHEDULE

Construction is scheduled to begin on or about September 20, 2021. Construction activities shall be limited to 7:00 a.m. to 7:00 p.m. Monday through Saturday.
