ConEdison Solutions  
100 Summit Lake Drive, 2nd Floor  
Valhalla, NY 10595

Dear John:

**Re: Letter of Reference**

As part of an EPC (Energy Performance Contract), the Warwick Valley Central School District recently completed a 2.419 Mw Solar Field at our Sanfordville Elementary School. The project will generate enough electricity to cover our District electricity bill in its entirety. The 10-acre solar field is the largest District-owned solar installation in New York State, and it is expected to generate approximately 2.9 million Kilowatt hours of electricity each year.

The Solar EPC contractor was ConEdison Solutions. ConEdison Solutions did a great job from start to finish. There was excellent communication between ConEdison Solutions management, contractors, our engineer and the District. ConEdison Solutions was always responsive to phone calls and emails, which is very important with a project of this size. The engineers at ConEdison Solutions designed a solar installation that exceeded our expectations, and the Warwick Valley CSD highly recommends ConEdison Solutions for photovoltaic solutions.

If you have any questions, please feel free to call me. Thank you.

Sincerely,

Timothy Holmes
